Palette Show words word Random Custom Sort Clear Cards Clear All Delete Undo

1

Palette

Closes and opens the list of items so you can work on a larger surface with limited distractions.

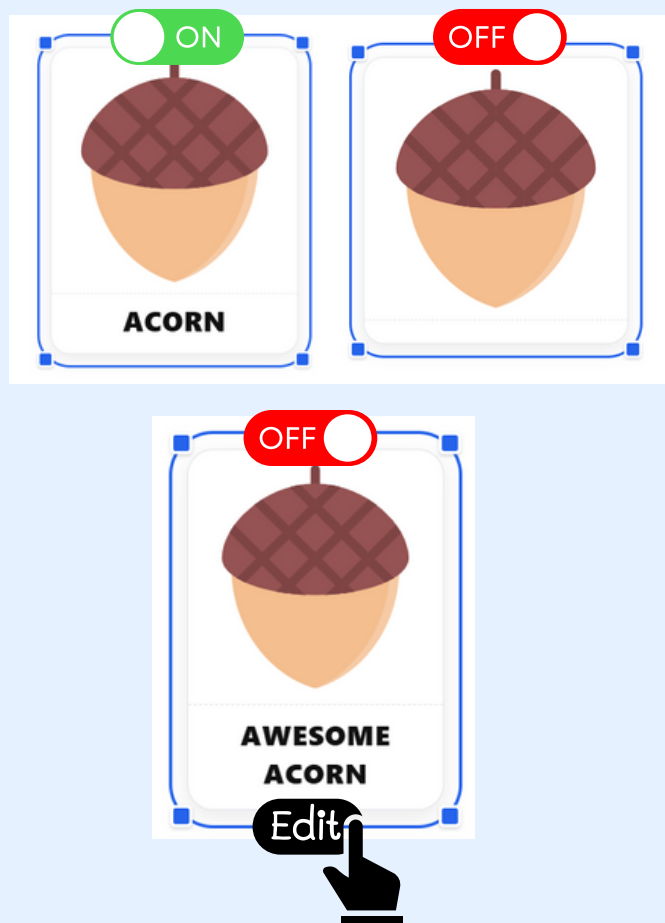

2

Show words

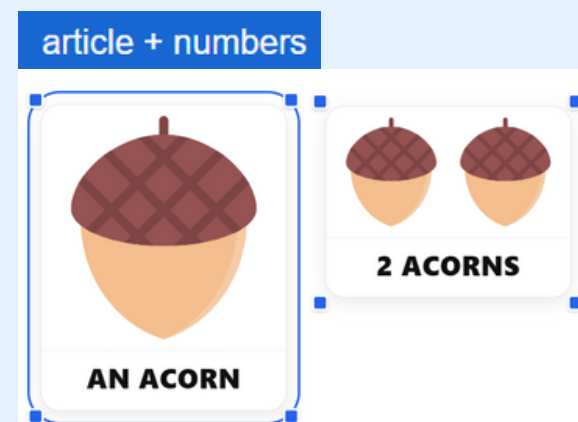

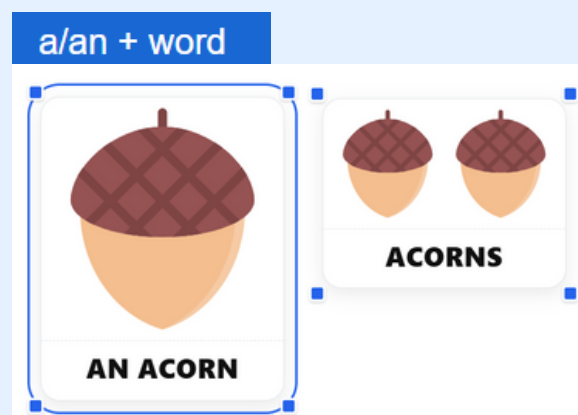

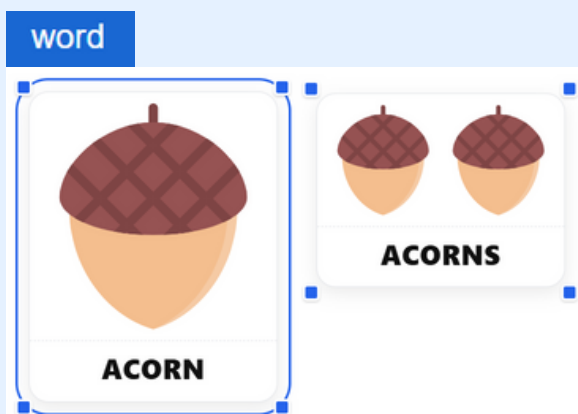

Toggles card labels on and off. Typically won't affect edited or custom labels. You can still add your own label in this mode.

3

word

When "show words" is on, changes the card mode for most countable nouns.

4

Random

Adds a random card to the board.

5

Custom

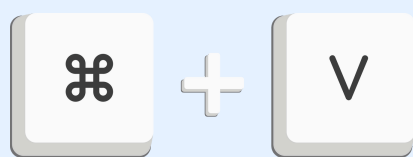

Adds a text-only card for your own word.

You can also add an image-only card by copying an image from the internet and pressing these keys at the same time:

(windows)

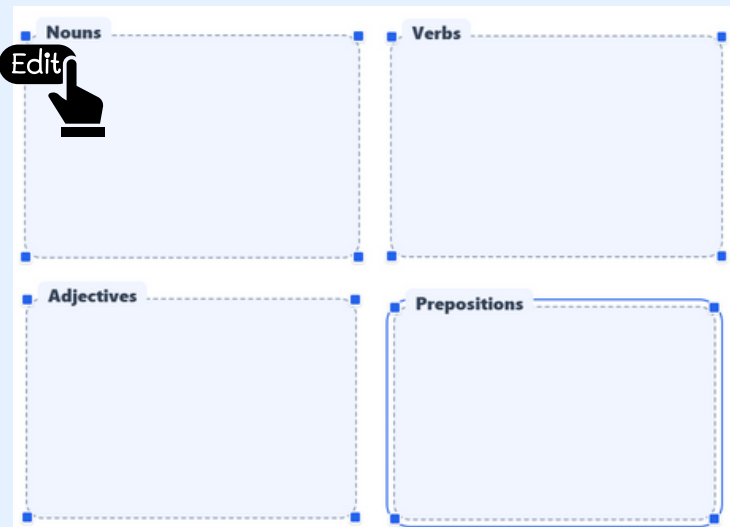

(mac)

6

Sort

Adds a sorting mat with. Click on the mat's title to edit it. Add as many mats as you need.

7

Clear Cards

Deletes cards from the board, but leaves sorting mats. Custom image cards cannot be recovered once deleted.

8

Clear All

Deletes everything from the board. Custom image cards cannot be recovered once deleted.

10

Undo

Reverts your most recent action(s). Cannot delete or recover custom image cards.

11

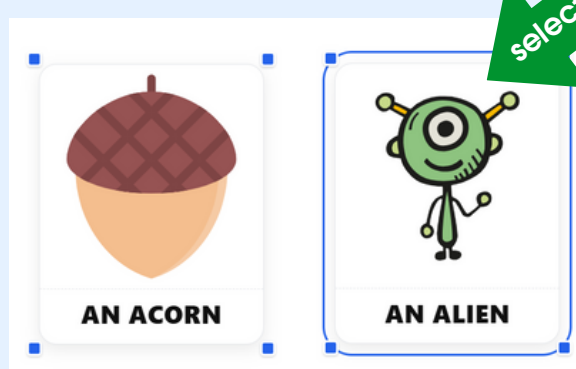

Open this document in a new tab.

9

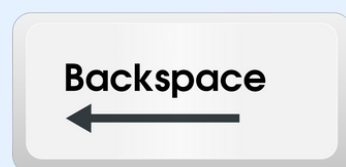

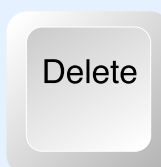

Delete

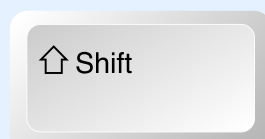

Deletes only the selected card(s), which has a blue box around it.

You can also delete selected cards with either of these keys:

Select multiple cards by holding down the Shift key while you click:
